Implementing the Title IX Regulations for K-12 Schools and Districts
Training & Certification Course Sample Agenda

Description:
This one-day certification course provides a comprehensive review of the procedural and substantive elements of the 2023 Title IX regulations, with a focus on practical implementation strategies for Title IX administrators. Course content focuses on the revised regulatory requirements and the policy, procedural, and practice changes needed to ensure compliance.

Title IX professionals will leave this course with an understanding of:

▪ the elements of the various phases of the Title IX Grievance Process
▪ training and reporting requirements
▪ awareness and response requirements for pregnant and parenting students and employees
▪ protections for LGBTQIA+ individuals
▪ Title IX scope and applicability

Expert presenters will place this discussion against the backdrop of ATIXA’s best practices approach for school/district sex-based discrimination and harassment grievance procedures, as well as more specific protections for non-discrimination on the basis of pregnancy or related conditions. They will share their best thinking and detail the many policy decisions facing Title IX professionals, including how to structure and staff your processes, as well as how to incorporate specific requirements that might apply to your school/district either because of state law requirements or governing court precedent in your jurisdiction.

ATIXA understands how challenging it has been for institutions to keep pace with the constant swinging pendulum of the Title IX regulations. We’re here to help you wade through the bureaucratic language to find clarity and the solid practices that will ensure you have a reputable, fair compliance program of integrity. You will leave this training with a solid understanding of the regulations and a plan for the specific implementation needs at your particular school/district.
Learning Outcomes:

After completing this training, participants will be able to...

- Explain the major components of the Final Rule (regulations), including implementation timeline
